EXPERIENCE

Associate Software Engineer

GytWorkz

May 2021 – Present

Hyderabad, Telangana

- Built a Web App called Fiifi. Fiifi is a quantitative portfolio management system that aggregates all of your information to one location. Fiifi has been developed using Vue.js, node.js, mongoDB and Koa.js. Worked on building the vue.js components and writing REST Apis.
- Worked on building a CRM for an organisation called Insight Medical Genetics. The CRM enables the user to schedule appointments, send regular updates and reminders to patients regarding the appointments and lab test, send fax, messages and campaigns to the user, upload document, video and audio calling, send fax, and has identity access management. Built using Angular.js, node.js, express.js, postgresql and mysql. Worked on writing the REST apis for the CRM.
- Currently engineering the ZestMoney application into microfront-end architecture using react. Worked on building a logger package for logging on front-end. worked on building a tracker package which enables user to use moenagage, gtm, funnel-track and mixpanel to track data. Worked on creating module apps for zestmoney's authentication and payments.
